- 3. In answering each Information Request, identify all sources (both persons and documents) contacted for information and all sources contributing information used in this response.
- 4. If information not known or not available to the Respondent as of the date of submission of its response should later become known or available, Respondent must supplement its response to U.S. EPA as that information becomes known and available. Moreover, should the Respondent find, at any time after the submission of its response, that any portion of the submitted information is false or misrepresents the truth, respondent must notify U.S. EPA as soon as possible.
- 5. For each document produced in response to this Information Request, indicate on the document, or in some other reasonable manner, the number of the question to which it responds.
- 6. You must respond to the Information Request on the basis of all information and documents in your possession, custody, or control or in the possession, custody, or control of your former or current employees, agents, servants, contractors, or attorneys. Furnish such information as is available to you, regardless of whether or not it is based on personal knowledge and regardless of source.
- 7. Your response should be accompanied by a notarized affidavit from a responsible company official or representative stating that a diligent record search has been completed and that there has been a diligent interviewing process with all present and former employees who may have knowledge of the operations, hazardous substance use, storage, treatment, releases, spills, disposal, or handling practices of the Respondent between 1960 and the present. To the extent that any information you provide relating to these Requests is based on your personal knowledge, or the personal knowledge of your employees, agents, or their representatives, this information shall be in the form of a notarized affidavit.
- 8. If any documents requested herein have been transferred voluntarily or involuntarily to others or have been otherwise disposed of, identify each such document, identify the person (including position and title) who original had possession, identify the person (including position and title) to whom it was transferred, describe the circumstances (including date)

surrounding such transfer or other disposition, state the date or approximate date of such transfer or other disposition, and if the document was disposed of pursuant to and incompliance with a company records management policy provide copies of any company policies or procedures in place which authorized the destruction of records and include the dates such policy was instituted.

- The information requested herein must be provided notwithstanding its possible characterization as confidential information or trade secrets. You may, if you desire, assert a business confidentiality claim covering part or all of the information requested, in the manner described by 40 C.F.R. Information covered by such a claim will be disclosed by U.S. EPA only to the extent, and only by means of the procedures set forth in 40 C.F.R. Part 2, Subpart B. Federal Register 36902 et seq. You should read carefully the above-cited regulations, together with the standards set forth in Section 104(e)(7) of CERCLA, before asserting a business confidentiality claim, since certain categories of information are not properly the subject of such a claim, as stated in Section 104(e)(7)(ii) of CERCLA.
- 10. Answers must be provided to each request. If you claim that a document is responsive to the question and you do not attach the document in response, you must list the date of the document, its content, the author and recipient and state how that document is responsive.
